Dates when observations are not possible:

ABSTRACT (< 50 words):

Add to this form: a) scientific justification + observing method + time estimate ($\leq$ 2 typed pages), b) list of sources to be observed, and c) $\leq$ 2 pages of figures, tables and list of related publications.

---

*Key programme status is intended for applications demanding large amount of time or long term monitoring. Successful applicants will be expected to release fast the results by means of publications or public databases. This status is given for two years and a progress report is requested every semester.
